## Access for all Smart green, not extreme green

The Outdoor Recreation Party believes public land should be accessible for recreation and actively managed, not locked up and neglected. It supports access by aircraft, boat, vehicle, bicycle, horse and on foot.

It views current restrictions as symptomatic of a larger problem of excessive regulation, bureaucracy and government intrusion. It supports efforts to reduce the size of government through less regulation, greater personal choice and lower taxes.

If elected, the ORP will support:

|                              |                                                                                                                                                                                                                                                            |
|------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Four wheel driving           | <ul style="list-style-type: none"><li>• Free access to public land</li><li>• No discrimination against 4WD vehicles</li><li>• No bull-bar restrictions</li></ul>                                                                                           |
| Fishing                      | <ul style="list-style-type: none"><li>• Repeal of all marine parks since 1995</li><li>• Bag and size limits but no fishing licences</li></ul>                                                                                                              |
| Shooting and hunting         | <ul style="list-style-type: none"><li>• Repeal of unjust and illogical gun laws</li><li>• Hunting of feral animals in National Parks</li><li>• Reform of NSW Game Council</li></ul>                                                                        |
| Motorcyclists                | <ul style="list-style-type: none"><li>• Free access to public land</li><li>• Reduced taxes and tolls</li><li>• More designated parking</li></ul>                                                                                                           |
| Traffic laws                 | <ul style="list-style-type: none"><li>• Focus on safety, not revenue</li><li>• No harassment of young drivers</li><li>• Speed limits based on the 85<sup>th</sup> percentile</li><li>• Use of radar detectors</li></ul>                                    |
| Hikers, bush walkers, skiers | <ul style="list-style-type: none"><li>• Free access to public land</li><li>• Taking dogs (under control) into National Parks</li><li>• Removal of ski-fields from National Parks</li><li>• Encouragement, not discouragement</li></ul>                     |
| Environment                  | <ul style="list-style-type: none"><li>• No bans on land clearing</li><li>• A viable, renewable forestry industry</li><li>• Keeping native animals as pets</li><li>• Active management of National Parks</li><li>• Smart green, not extreme green</li></ul> |

In the NSW state election on 26 March 2011, vote in the lower house for who you like.  
But in the upper house:

## Vote 1 Outdoor Recreation Party For fewer rules and more freedom
